

WILL BE GIVEN TIME.

Germany Will Not Act Against Venezuela at Once.

The Departure of the Cruiser Gazelle From Kiel For Venezuelan Waters Is Delayed By Necessary Outfitting.

Berlin, Dec. 31.—Monday the small German cruiser Gazelle was ordered to sail immediately from Kiel to Venezuelan waters.

The government intends to send one or two other small warships to reinforce the present German squadron in the Caribbean sea. The additions to Germany's naval force in the Caribbean will not be sufficient to give rise to suspicions among the people of the United States that Germany meditates anything beyond the collection of claims due German subjects. The German government desires, beyond anything else in this matter, to avoid disturbing the government or the people of the United States. German newspapers published Monday were full of expressions of this kind, and many of these expressions are so much alike that it is easy to infer their utterance was suggested by the government. A remarkable thing is the fact that there is not a single unkind expression towards the United States in any of this newspaper comment. Even the dispatch from Washington to a newspaper, printed Sunday, to the effect that persons of importance in the war and navy departments consider war between Germany and the United States to be inevitable, and which has been reproduced everywhere throughout Germany, is discussed coolly and for the most part, treated with incredulity.

Berlin, Jan. 1.—Until Dr. O. Schmidt-Leda, the German minister to Venezuela, arrives at Caracas, which will be about January 5, nothing will be done by Herr von Pilgrim-Baltazzi, the German charge d'affaires there, to press President Castro further. Dr. Schmidt-Leda bears instructions from the German government. The carrying out of the successive steps outlined in these instructions, will end in coercive measures, which will probably be applied in four or five weeks time if intermediate efforts shall have failed in the meantime. It is possible, however, that events may shorten this period.

In so much as Germany is possessed of the good will of the United States, in this matter, Baron von Richthofen, imperial secretary of foreign affairs, desires to give President Castro ample time to recognize this fact, and the fact also that Germany is really in earnest in the matter. Germany will not act at the moment when a foreign difficulty might strengthen President Castro's hold upon his country by uniting Venezuelan national feeling against Germany.

It is understood at the foreign office here that the United States is not only tolerant of Germany's purposes toward Venezuela, but pleased that Germany and not the United States is to undertake to discipline Venezuela into paying her debts and keeping faith with foreigners doing business there.

Germany's action with regard to Venezuela has been likened here to France's recent course toward Turkey, which was considered wholesome to have affected the controversies between Turkey and other countries.

The German cruiser Gazelle is still at Kiel, although she has been ordered to sail for the Caribbean sea. Her departure is delayed by necessary outfitting.

A PUBLIC RECEPTION

President Roosevelt's First Was Largely Attended New Year's.

The Function Began at 11 O'Clock and It Was 2:30 Before the Last Person in Line Was Presented to the President.

Washington, Jan. 2.—President Roosevelt's first public reception was attended more largely than any New Year's reception in a number of years. In all 8,100 persons passed before the president, being 4,400 more than received by President McKinley last year.

Mr. Roosevelt, on being apprised that the crowd in line outside the white house was unusually large, gave orders that the gates should not be closed until the last person who desired to do so had opportunity to pay his respects. The reception began promptly at 11 o'clock and it was 2:30 o'clock before the last person in line had been presented to the president, and a quarter of an hour later before the reception came to an end.

The weather was delightful, being clear and crisp, so that no hardship was suffered by the throng that waited for hours before admission to the white house. The reception was in every way successful, the attendance not only being large, but the decorations really beautiful, the arrangements perfect and the president in excellent spirits. To each person he extended a cordial, happy New Year, and Mrs. Roosevelt was equally pleasing to each of those who filed past the line in the blue parlor, where the receiving party stood. Miss Alice Roosevelt was conspicuous among those assisting at the reception. A party of her young girl friends, by invitation, also participated in the function.

Mrs. Roosevelt looked exceedingly pretty and youthful in a white dress. The material was a very heavy white silk, corded about an inch apart. A square of Irish lace, with revers of lace, trimmed the bodice, and the high collar, also of lace, was finished at the back with a rosette of white tulle. A few jewels were worn in the corsage and diamond topped combs held back the smoothly dressed hair. An ornament of white leaves, in which diamond drops glistened, was also worn in the hair. Mrs. Roosevelt's right glove, which was snowy white at the start, was far from that color an hour later, but the tired little hand within it gave no evidence that its owner felt any fatigue. The bouquet she carried was of pink and purple orchids.

Mrs. Root wore pale blue satin striped crepe and a deep collar of Irish point. Mrs. Knox was in white brocade and crystal passementeries. Mrs. Smith wore light gray satin. Mrs. Hitchcock, in mauve brocade and lace, and Miss Wilson, in white satin that had appliques of leaves and roses in natural colors.

Miss Roosevelt was in pure white mousseline de soie, and wore the pearls and diamond ornaments that were her father's Christmas gifts. Mrs. George B. Cortelyou wore black velvet, with broad bands of duchess point. Her sister, Miss Hinds, also wore black satin striped grenadine.

Bevin was 40 years of age and had served in the Philippines.

THE CUBAN ELECTIONS.

The Entire Palma Ticket, Nationalist, Will Be Elected—A Light Vote.

Havana, Jan. 2.—The indications are that the entire Palma ticket will be elected and that Thomas Estrada Palma, the nationalist candidate for the presidency of Cuba, will receive the unanimous vote of the electoral college.

The adherents of Gen. Bartolome Maso (democratic candidate who recently withdrew from the campaign) not only withdrew their candidates, but refused to go to the polls.

A remarkably light vote was polled throughout the island.

La Discussion describes this indifference to the certainty on the part of the Palmaists of being victorious and that consequently the majority of them remained at home and did not vote. La Lucha says that this light vote can be taken as a protest from the Cuban people against the imposition of official candidates.

The Diadora De La Marina says that the result is an indication that the Cuban democracy may look upon American policy as inevitable.

FAILURES FOR THE YEAR.

They Were 11,076 in Number and \$131,111,150 in Amount.

New York, Jan. 2.—Reports to R. G. Dun & Co. show that failures for the year 1901 were 11,002 in number and \$113,092,376 in amount of liabilities, while of banking and other fiduciary institutions, there were 74 insolventcies, involving \$18,018,774, a total of 11,076 defaults and \$131,111,150 liabilities. These figures compare very favorably with the 10,833 failures in 1900 with liabilities of \$174,113,236, of which 59 were banks for \$35,617,563. Manufacturing disasters in 1901 numbered 2,441 with an indebtedness of \$44,960,983, compared with 2,409 in the previous year, owing \$51,702,142, while there were 7,965 suspensions of traders for \$52,060,640, against 7,844 in 1900, with liabilities of \$59,415,592. The defaulted liabilities were 95 cents to each \$1,000 of bank exchanges. A ratio to the number of firms in business shows that the entire amount of defaulted indebtedness averaged \$94.33 for each concern. This amount compares with \$119.63 in 1900, while going back to 1893 the average was \$290.65.

RAILWAY WRECK IN LOUISIANA.

Two Men Killed and One Injured—The Train Burned.

Shreveport, La., Jan. 2.—A Keithville, La., special says two lives were lost, one person was seriously injured and part of a car of valuable race horses en route from the winter meeting at New Orleans were destroyed in a disastrous collision between Texas Pacific fast freight No. 67 and a Houston, East & West Texas freight on the siding at this place at 4 o'clock Wednesday morning. Twelve cars of the Houston East & West Texas train caught fire and burned to the trucks.

One car contained four race horses belonging to J. W. Fuller, of Willis Point, Tex., which were en route from the winter meeting at New Orleans. George Arnold, for which \$20,000 had been refused, the only one killed, won the Christmas handicap, the premier stake, at New Orleans. The horse was insured for \$9,000. Three other horses in the car, Queen Esther, Kate Ayre and Free State, were injured and escaped to the woods. James Kane, who was killed, was travelling with these horses.

The work to rescue the injured had to be done quickly because the gas tanks in the cars were exploded and set fire to the wreckage. The flames spread rapidly and in a short time the entire train was burned.

SITUATION CRITICAL.

Hitch in Pan-American Congress Over Compulsory Arbitration.

Chilian Delegates Hint That the Plan Would Be Made the Pretext For Covert Attacks on Chili.

Mexico City, Jan. 2.—The situation in the Pan-American conference continues critical and probably not until Friday will the fate of the gathering be known. The Chilian delegation were closeted with one another Wednesday, but when seen they declined to give any intimation as to their ultimate action. If they remain firm and refuse to allow the plan of compulsory arbitration to be reported to the conference, then either they or several of the other South American delegates must withdraw. The burden of peacemaking falls on the Mexicans, as the United States delegates remain neutral. Though the latter will not sign a plan of compulsory arbitration, they have no objection to allowing such a plan to be signed by some of the South Americans, to be reported to the conference as long as the United States goes on record as having nothing to do with it. Still the Americans will not take an active part in procuring admittance for the compulsory plan.

When asked why they do not take the same stand as the Americans the Chilians hint that the introduction of the compulsory plan will be made the pretext of covert attacks on Chili like that of Baez; that the facts will be misrepresented abroad and that their enemies in South America may endeavor to use the semi-sanction of the conference for compulsory arbitration against Chili in the future. The situation is the theme of general conversation in political circles.

What chiefly worries the Chilians is that the compulsory arbitration plan, if it goes to the conference at all, is likely to go there with a slight majority. It is known that it has at present ten supporters, as against eight who will never vote for it. The Chilian would not mind if the plan had not this majority. They have made unsuccessful attempts to detach Salvador from the plan, and now they are hard at work on the delegates of Honduras. So far as developed the Chilians' attitude commands little sympathy even among the delegations who do not favor compulsory arbitration. It is claimed that it looks like an attempt of Chili to coerce the conference, and no reason is seen why, while holding their own views, the Chilians should not allow some of the other nations to place themselves on record for compulsory arbitration if it pleases them.

LARGER SCHOOL BUILDINGS REQUIRED.

Owing to the recent large influx of population into Western Canada it has become absolutely necessary in many parts of Manitoba, Assiniboia, Saskatchewan and Alberta to increase the school accommodation. In many places buildings have been erected that are only half-occupied. This is perhaps as good evidence as will be found not only of their satisfaction with their present school system and their confidence that it will remain as it is, but also of their firm belief in the future expansion of the country, in increased immigration, and it further indicates that they have little fear that the well established rate of births in civilized communities will not be maintained there.

The free homestead laws and the cheap railway lands offer great inducements, which are opening up the new settlements. Agents of the Government of Canada are actively at work in different portions of the States for the purpose of giving information to possible settlers, and advertisements are now appearing in a large number of papers, giving the names and locations of these Agents.
